WIND AND RAIN DEFLECTORS

AERODYNAMIC AND STRONG RESISTANCE TO IMPACTS

Since 1979, G3 is successfully producing this useful and functional product. Over the years and after several studies, the company discovered a good application of the extruded PMMA with a high shatter resistance. This material is characterized by a high cold and heat resistance (-35°C/+80°C), a high resistance to flames and light, high crash strength following DIN 50306 (no impact marks under 3 meters). G3 developes its product using CAD-Data and completes the project achieving ECE standards, TUV approval and KBA certification (under the German law).the productive process.

FEATURES

PMMA
MATERIAL

MATERIAL

Extruded PMMA = Polymethyl methacrylate with high shatter resistance.

2,1mm
THICKNESS

THICKNESS

Maximum thickness of the product.

RESISTANT

TEMPERATURE LEAP RESISTANCE

The material our wind deflectors has brilliantly passed high and low temperature tests (-35°C/+80°C).

130 km/h
80 mph
MAX SPEED

MAX SPEED

Maximum speed suggested when the products is installed.

FLEXIBLE

FLEXIBLE

G3 deflectors are made of flexible material, reducing the risk of damage.

TEST
BALL DROP

BALL DROP TEST - DIN 50306

Tested with falling load (227 gr. weight) from 3 mts. height at the room temperature of -20°C. This test verifies the material resistance in critical conditions, like low temperatures.

FEATURES

QUALITY TESTED

Our products have to pass strict quality tests to meet all the imposed requirements before their launch on the market.

EASY-SYSTEM

Efficient rapid assembly time achieved thanks to a pre-assembly work and the G3 attention to details. Fixation with or without clamp system.

NOISELESS

The product minimizes the noise due to currents of air during the drive.

EASYFIX

Easy and fast assembling due to installation tool included, no need for additional tool.

BAD WEATHER RESISTANCE

Material and design of G3 wind deflectors make this product perfect for each season.

SMOKE OUT

Our wind deflectors give the possibility to keep the side window open even during rainy days, letting the smoke out but impeding the water to get inside the car.

PRACTICALITY

G3 wind deflectors have no particular obstacles: you can wash your car with no need to remove the accessory.
