Passione e produzione italiana

La produzione **G3** è l'evidente risultato della storia manifatturiera e del design italiano. I nostri prodotti nascono a Reggio Emilia, piccola città situata nella splendida regione dell'Emilia Romagna. All'interno dell'Azienda si possono ancora percepire le origini fortemente legate alla tradizione anche se, negli ultimi 45 anni, **G3** ha sempre avuto un occhio rivolto all'innovazione con l'obiettivo di migliorare continuamente il proprio processo produttivo ed i propri prodotti. L'ultimo risultato di questo percorso è rappresentato dall'inserimento della nuova gamma portabici, cominciando da quello per portellone posteriore. Tutti i prodotti **G3** sono 100% Made in Italy poiché concepiti, sviluppati e prodotti integralmente all'interno dei nostri stabilimenti.

Massima flessibilità
Il nostro obiettivo è essere in grado di guidare il processo e seguire le richieste: vogliamo soddisfare le richieste del mercato.

Gestione della qualità
Il sito produttivo e i processi sottostanno alla normativa ISO 9001:2015 e IATF 16949:2016.

Progettazione su misura
Siamo in grado di seguire tutto il processo legato ad un prodotto, dall'idea alla produzione, raggiungendo la miglior soluzione in termini di adattabilità.

Produzione interna
Tutti i nostri prodotti sono orgogliosamente realizzati al 100% in Italia per dare soluzioni su scala globale.

Passion and Italian manufacturing

G3 Production is the evident result of the Italian design and engineering. Our products are manufactured in Reggio Emilia, a small city located in Emilia Romagna. Inside our company is still possible to feel the origins, which are strongly linked to our tradition. However during these 45 years, **G3** has always kept attention on innovation with the aim of a constant improvement of its processes and its products. Our last goal has been represented by the improvement of products range with bike carriers starting from the one for the rear trunk door. All **G3** products of are 100% made in Italy, as fully designed, developed and produced inside our factories.

Maximum Flexibility
Our aim is to be able to lead the process and to follow your request: we want to meet your needs.

Quality Management
Production site and processes are certified ISO 9001:2015 and IATF 16949:2016.

Specific Engineering
We follow all the processes, from the concept to the production, to reach the best fitting solution.

Domestic Production
Our products are proudly 100% made in Italy to give worldwide solutions.

Fornitore ufficiale Official Supplier

Il nostro know-how

Le origini artigianali continuano a respirarsi nell'azienda, ma G3 negli anni ha dovuto munirsi anche di processi di ricerca e sviluppo all'altezza dei clienti di livello mondiale che è stata in grado di attirare a sé. Ricerca delle linee migliori, cura del dettaglio, costanti investimenti nello studio dei materiali sono le direzioni in cui l'organizzazione si dirige, mantenendo alto l'interesse di offrire ai propri clienti prodotti all'avanguardia, senza mai trascurare il gusto estetico ed il design tipicamente italiani.

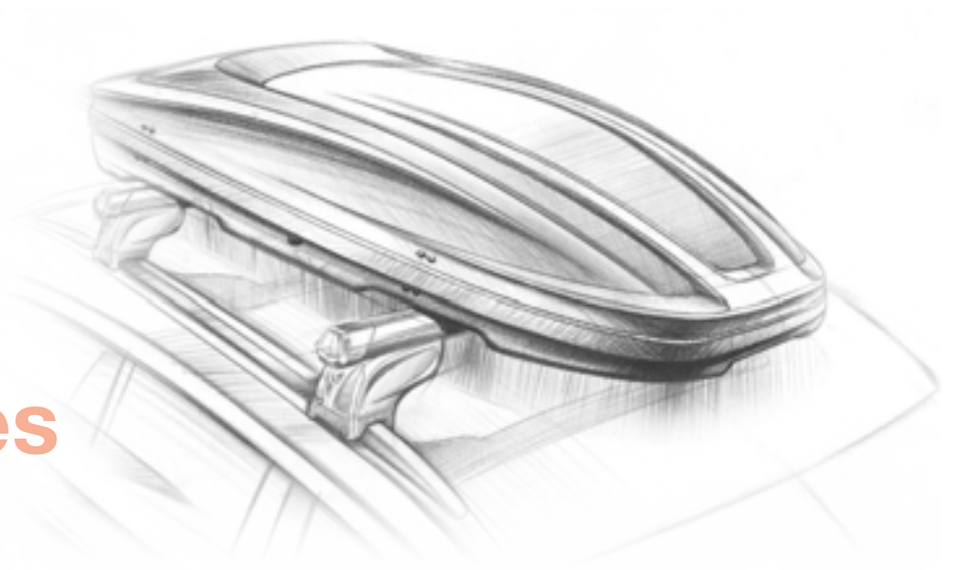

Our know-how

Our artisan origines keep being tangible inside the company, but over the years G3 has adopted new R&D processes to be up to the demand of our worldwide customers. Research on better lines, care for details, constant investments in the research of raw materials, these are the directions leading the organisation, maintaining its interest in offering avant-garde products never forgetting the typical Italian style and design.

Box tetto
Roof boxes

Box tetto Roof boxes

SISTEMA DI APERTURA DUAL SIDE

L'apertura Dual Side permette di aprire il box da entrambi i lati per agevolarne montaggio, carico e scarico.
I tecnici **G3** hanno ideato un sistema di doppia apertura laterale che ha permesso di migliorare nuovamente le prestazioni della gamma box. Questa soluzione permette di aprire, con la stessa chiave, il box da entrambi i lati in modo da consentire un più semplice e completo accesso al box da tetto, rendendolo così comodo e pratico in tutte le condizioni. Inoltre, il sistema di doppia apertura svolge una duplice funzione: soluzione fondamentale per le esigenze di tutti i Paesi con guida nella carreggiata sinistra e possibilità di affiancare il box da tetto ad altri accessori sulla barra di portaggio. Inizialmente, questa innovazione verrà applicata solo ai box di fascia più alta andando cosi ad arricchire una gamma prodotti che presenta già diverse finiture, chiusura centralizzata e city crash test. Ancora una volta, il box **G3** cerca di soddisfare le sempre maggiori esigenze del mercato, aumentando la versatilità e migliorando l'accesso ai bagagli senza perdere di vista praticità ed eleganza.

Dual **S**ide

DUAL-SIDE OPENING SYSTEM

The dual-side opening system allows customer to open the roof box from both sides: in this way the mounting process gets easier as well as loading and unloading operations.
G3 engineers have created this dual-side opening system in order to improve **G3** roof box range performances. An only key is required to open the box by each side: in this way a better and easier access to the roof box can be acheived. This solution makes the box more comfortable and practical in every condition. Furthermore the dual-sided opening represent a essential solution for all the countries with left-lane driving way and, at the same time, it provides the opportunity to match the roof box with other accessories on the roof bar. At the beginning this innovation will be applied only on the high-level **G3** roof boxes, enriching in this way a range of products offering good-looking finishes, central locking and city crash test certification.
Once again, **G3** roof boxes try to fulfill the growing market demand, increasing the versatility and improving the access to the loaded luggage without losing sight on their practicality and elegance.

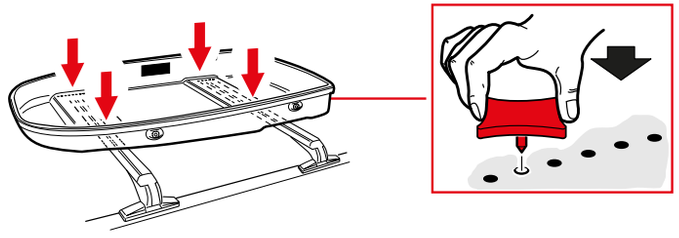

PREFORATURA

Grazie alle innovative capacità dei nostri tecnici è stato possibile creare il pratico sistema di preforatura che contraddistingue la gamma di box da tetto **G3**. Per montarli sarà sufficiente l'utilizzo del pratico Hole Maker Tool, nuovo strumento ideato dalla nostra Azienda e messo a disposizione di ogni cliente per facilitare ancora di più la fase di montaggio! Semplice e veloce, permette al suo possessore di non dover maneggiare strumenti pericolosi e capaci di procurare danni a se stessi o ad altri. Il risultato è ottimale, assolutamente migliore di qualsiasi altro ottenibile dai prodotti presenti in commercio: infatti il sistema di preforatura migliora la precisione del montaggio e contribuisce ad aumentare la qualità ed il valore del prodotto **G3**.

PRE –DRILLED HOLES

Thanks to the innovative skills of our technicians it's been possible to create the practical system of pre-drilled holes which distinguishes the **G3** roof boxes. It is possible to fix the roof box with the practical Hole Maker Tool, a new tool developed by our company and made available to each customer in order to simplify the fixing process. Simply and quickly, the costumer is not required to manage dangerous tools to fix the box which might be risky. The result is excellent, absolutely better than any other competitor can provide on the market: the system of pre-perforation improves the precision of mounting and contributes to increase the quality of **G3** boxes.

GARANZIA

G3 garantisce ogni prodotto uscito dal proprio stabilimento. Questo, per sottolineare ancora una volta la qualità dei suoi prodotti e l'attenzione che l'azienda pone nei confronti dei propri clienti.

WARRANTY

G3 guarantees that every new product is made in our factory in Italy, in order to underline the quality of the product and the attention that the company has toward the customers.

CITY CRASH

Tutta la gamma box **G3** ha brillantemente superato i test ISO/PAS. Tutti i box sono stati testati con una forza di impatto pari a 8G ed un peso che varia dai 50 kg ai 75 kg.

CITY CRASH

G3 complete roof bars range (open, pacific, clop and atlantic) has successfully passed the ISO/PAS tests. All the bars are tested with an impact force equal to 8G and weight that range from 50 kg (for pacific) to 75 kg.

FINITURE

La gamma box **G3** è disponibile in diversi colori e finiture che comprendono anche le serigrafie UK, Camou ed il nuovissimo Road. Tutto questo, per rimanere al passo con le nuove tendenze e soddisfare ogni esigenza da parte del cliente.

COLOR

G3 roof box range is available in different colors, shapes and finishings, which also included silk-screen printing like UK, Camou and the new Road. All of this, to keep up with the new trends and to meet every need of the customers.

EASYFIX

EASYFIX
Montaggio rapido del prodotto ottenuto senza bisogno di attrezzi aggiuntivi.

EASYFIX
Easy and fast assembling of the product without the use of any additional tool.

UV

UV
Il materiale subisce un trattamento di schermatura per proteggere il prodotto dai raggi UV e mantenerlo integro nel tempo.

UV
Shielding treatment of the material protects the product from Ultraviolets (uv rays) in order to last in the years.

ABS
MATERIAL

MATERIALE
ABS = Acrilonitrile Butadiene Stirene.

MATERIAL
ABS= Acrylonitrile Butadiene Styrene.

PS
MATERIAL

MATERIALE
PS = Polistirolo.

MATERIAL
PS= Polystyrene.

ASSEMBLY TIME

TEMPI DI MONTAGGIO
Tempo stimato dall'azienda per un montaggio "a regola d'arte" del prodotto.

ASSEMBLY TIME
Time extimated from **G3** to have a correct assembly of the product.

Easy-System G3

EASY-SYSTEM
Efficiente sistema di montaggio rapido (tempo non superiore a 15 min.) ottenuto grazie al lavoro di pre-montaggio ed alla cura per i dettagli che **G3** mette in tutti i suoi prodotti.

EASY-SYSTEM
Efficient rapid assembly time (not more than 15 min.) achieved thanks to a pre-assembly work and the **G3** attention to details.

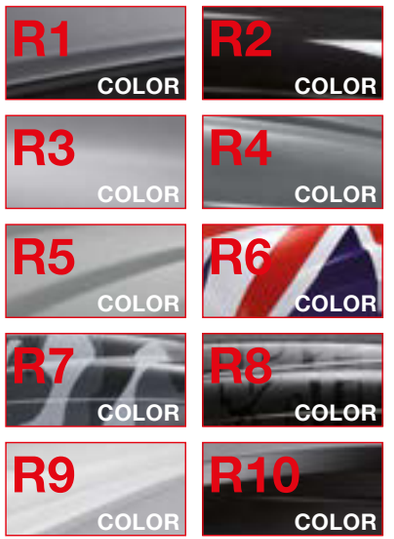

LA GAMMA

L'ampia gamma di box da tetto **G3** è in grado di soddisfare ogni tipo di esigenza: dal bisogno di spazio per un maggiore comfort alla ricerca di prodotti con una linea accattivante e di tendenza. **G3** propone una vasta scelta di modelli (che soddisfano in pieno tutti gli standard City Crash), di tutte le dimensioni e finiture, tra le quali i nuovissimi colori UK, camouflage e road.

RANGE

The wide range of **G3** car roof boxes satisfies every need: from space for higher comfort, to research of fashion and fascinating products. **G3** offers a lot of models (all satisfy all city crash standards), among which the new UK, camouflage and road colours.

GUIDA ALL'ACQUISTO

Posso montare qualsiasi box sulla mia auto?
La risposta è sì.
Il box da tetto è un prodotto pressoché universale. Premesso che il box viene scelto in base alle proprie necessità di carico, bisognerebbe tenere comunque conto che un sistema di portaggio troppo lungo potrebbe ridurre l'apertura del portellone posteriore.
Il consiglio che **G3** dà a tutti i suoi clienti, è quello di confrontare le dimensioni del box con quelle del tetto dell'auto, in modo da scegliere sempre il prodotto più adatto.

BUYER'S GUIDE

Does any roofbox fits on my car?
Yes.
Roof boxes are almost universal products. You can choose it depending on your loading needs. Please consider that any longer carriage system may reduce the good opening of the trunk door.
G3 suggestion for all its customers is to compare roof boxes with car dimensions in order to choose the most suitable one.

TABELLA COMPARATIVA

Nella tabella sottostante abbiamo confrontato (con scopo puramente esemplificativo) le varie taglie dei nostri box con le principali categorie di automobile, per dare la possibilità al cliente di capire quale abbinamento box + auto possa risultare il migliore. In rosso, la soluzione consigliata da **G3**.

COMPARATIVE CHART

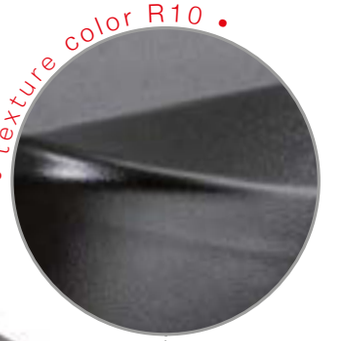

We compared (mainly as example) each size of **G3** roof boxes with the main car categories in order to give our customer the possibility to understand which match car & roof box may suit better to his needs.
